

Safe work does not happen by chance - it is the result of strong teamwork.

When teams are aligned, communicate clearly, and understand their shared responsibility, health and safety become part of everyday behaviour rather than a compliance exercise.

This team building day reinforced the principles that support safer workplaces: cooperation, awareness, and accountability. These principles translate directly into how risks are managed, incidents are prevented, and people are protected on site.

At Diba BES, teamwork is a critical component of effective occupational health and safety.
