

Compliance dashboard for 2026

A forward-thinking safety culture needs measurement - not just paperwork.

In 2026, a simple Compliance Dashboard helps teams stay audit-ready, close gaps faster, and build consistent site discipline. We recommend tracking these 5 practical KPIs:

- Inspection Score (%)
- Close-Out Time for findings (days)
- Toolbox Talk Completion (%)
- Induction Completion (%)
- Near-Miss Reporting Trend

 To request our ready-to-use dashboard template, comment “DASHBOARD” and we’ll DM it — or email info@diba.co.za with the subject line “COMPLIANCE DASHBOARD”.
